RANCHO LABS

IHFC | Technology Innovation Hub of IIT Delhi

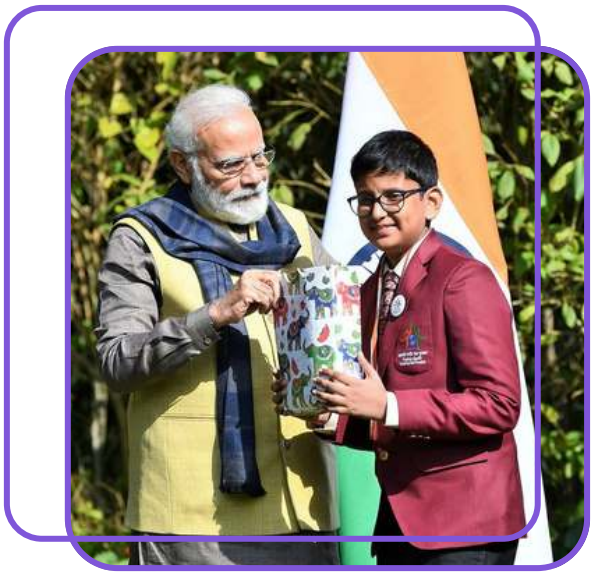

Game Development Winter camp

Future-Ready Learning,
Crafted by **IIT Delhi Alumni**

For Grade:

3rd to 5th

Unlock the Sky with Innovation
Turn Your **Curiosity** into **Creation** this Winter

RANCHO LABS

IHFC | Technology Innovation Hub of IIT Delhi

Who we are?

We reimagine how children learn, making it hands on, engaging, and real-world exploration based. Guided by an ethos to build a better future with experiential learning in a better way, **Rancho Labs was founded** by **IIT Delhi Alumni** to bring education in **AI**, **Coding**, **Robotics**, and **innovation** to life.

Incubated at IHFC, IIT Delhi, and trusted by over **25000+ parents worldwide**, we're empowering innovators with future-ready skills. We have come a long way, but we're only getting started.

RANCHO LABS

IHFC Technology Innovation Hub of IIT Delhi

About the Program

In this program, students dive into game development using **MakeCode Arcade**, learning to design, code, and debug their own games. From maze puzzles to platformers with animations, sound, and logic, they **build creativity** and **problem-solving** skills through hands-on projects while strengthening logical reasoning and structured thinking.

RANCHO LABS

IHFC Technology Innovation Hub of IIT Delhi

Learning Outcomes

- Learn to code games using blocks in **MakeCode** Arcade
- Understand **loops**, **logic**, and **timers**
- Design **characters** and **levels**
- Add **sound effects** and **animations**
- Improve **debugging** and **problem-solving** skills
- **Build** and **showcase** your own playable game

RANCHO LABS

IHFC | Technology Innovation Hub of IIT Delhi

Camp Schedule

(2 hours each)

Session 1

Introduction to MakeCode Arcade

- Introduction to game development
- The Arcade interface & simulator
- Toolbox & workspace
- Starting a new project
- Creating your first interactive project.

Session 2

Maze Escape Challenge

- Passable vs impassable tiles
- Tilemaps, walls & maze design
- Player movement & collisions
- Starting point, destination & win condition
- Building a maze escape game.

Session 3

Bouncing Ball Challenge

- Sprites & velocity
- Bouncing & wall collisions
- Movement direction
- Overlap events & scoring
- Building a bouncing ball game.

RANCHO LABS

IHFC | Technology Innovation Hub of IIT Delhi

Camp Schedule

(2 hours each)

Session 4

Apple Collector

- Collectibles & overlap events
- Score tracking with info blocks
- Countdown timers
- Winning conditions
- Building a race-against-time collector game

Session 5

Space Shooter

- Player movement with the controller
- Enemy sprites
- Collisions & overlap events
- Score & lives
- Building a classic arcade space shooter.

Session 6

Convocation & Game Showcase

- Presenting completed games
- Live game play for parents & peers
- Explaining how each game works
- Sharing challenges faced and lessons learned
- Certificate distribution ceremony

Locations & Fee Structure

1. Offline Centres

Visit our state-of-the-art innovation labs for an immersive, hands-on experience:

Head Office(IIT Delhi):

Rancho Labs, 1st Floor, Vishwakarma Bhawan, IIT Delhi, New Delhi - 110016

Offline Learning Centres:

- Gurugram Center: DLF Phase-1
- Noida: Spectrum Metro Mall, Phase-1, Sector 75
- Vasant kunj

2. Fee Structure

Offline Fee: ~~Rs.14,000/-~~ **Rs.12,000/-**

Proof of Excellence

Rancho Labs has been an incredible learning partner for my son, Bhavik, over the past two years. Their structured approach to teaching coding and AI has not only strengthened his technical skills but also helped him develop logical thinking and a problem-solving mindset. The emphasis on design engineering and real-world applications has given him a strong foundation for the future. We truly appreciate their dedication to nurturing young minds and making learning both engaging and impactful. Thank you, Rancho Labs, for inspiring and empowering the next generation of innovators!

Puneet Arora & Payal Madan Arora

Parents of **Bhavik Arora**

CEO @Advolt Pvt Ltd

Aabir is very fond of his Robotics class and he enjoys his time at Rancho Labs and always excited to come to the class to learn new challenging projects. Rancho Labs and their faculty has raised the bar for many such communities/institutions by providing first hand experience/practical exposure to kids. Encouraging the kids to think out of the box and solve daily challenges has actually made my kid even more smarter and a great problem solver. Truly appreciate the hard work that goes in the background by the teachers to make that every session extremely enjoyable and rewarding for the students every time.

Proof of Excellence

I am incredibly grateful to Rancho Labs and the entire team for providing such an engaging and inspiring robotics program for young minds. My daughter, Ivana Gupta, has truly enjoyed every session. The hands-on learning, the practical exposure, and the encouraging teaching style have sparked a genuine interest for technology in her.
It's been heartening to see her excitement after each class and the confidence she has gained.
Thank you for nurturing curiosity and laying such a strong foundation for the future.

Neha Gupta
Mother of **Ivana Gupta**

Director, PwC India

My son Rinawma, 12 years, is a special needs child. I am so happy to enroll him in Rancho Lab's Robotics class. He enjoys the classes by Dhananjay who's a gentle and patient teacher. I am impressed by the young and energetic staff that have guided us through the registration process and willing to lend a patient ear to all our queries. I am especially pleased that they allow for rescheduling of classes in case I, a working mother, cannot take him to class because of work commitments.

Kooki Ralte
Mother of **Rinawma Chawngthu**

Asst. Professor, Dept of English, PGDAV College, University of Delhi
